OVERSIZE LUGS 28.6X28.6X31.8mm, 25.4mm STEERER

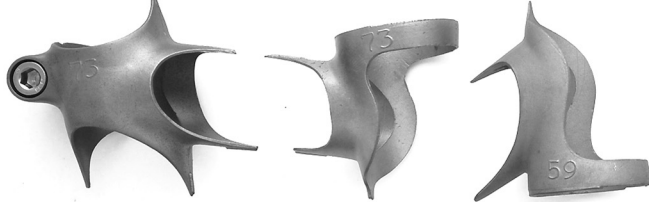

74° ITALIAN STYLE SEAT LUG 25.4X28.6

OVERSIZE BB, 28X20 OVAL

REGULAR LUGS 25.4X28.6X28.6mm, 25.4mm STEERER

HENRY JAMES FORK CROWN

LUGLESS BB SHELL

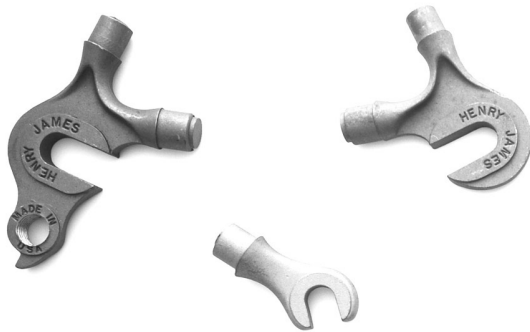

MOUNTAIN LUGS 28.6X28.6X31.8, 25.4 STEERER

CNC MACHINED

SEMI-HORIZONTAL PLUG-IN DROPOUTS

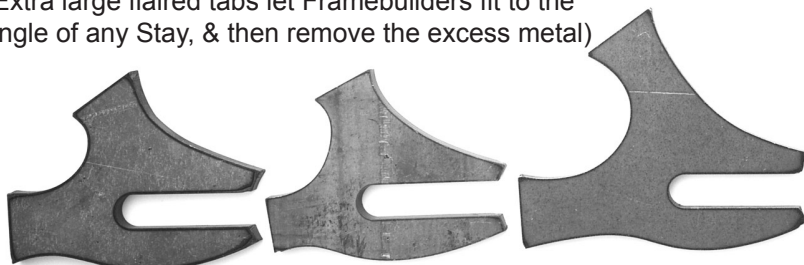

MOUNTAIN AND TOURING VERTICAL DROPOUTS

(Imported Front Dropout)

LASER CUT SINGLE SPEED DROPOUTS
(Extra large flaired tabs let Framebuilders fit to the angle of any Stay, & then remove the excess metal)

MOUNTAIN ROAD/TRACK ROAD CONVERSION

(Long Tabs on Conversion Dropouts make it easier to recycle favorite old frames as single speeds.)

DISK BRAKE MOUNTAIN DROPOUTS

CNC MACHINED BY PARAGON MACHINERWORKS IN THE USA

All Henry James Products are Made in the USA

GASFLUXER* (Puts flux in flame)...\$435.00
Please Call/E-mail for Shipping Cost
LIQUID FLUX (Call for Shipping)...\$31.00

GASFLUX PASTE FLUXES*

SELECT THE PASTE THAT MATCHES THE BRAZING ALLOY. DO NOT MISMATCH!

•Type "B" PASTE FLUX-Brass*/#.....\$11.25
This matches the melting point of Brass

•Type "U" PASTE FLUX-Silver*/#.....\$12.50
This matches the melting point of Silver

GASFLUX BRASS BRAZING RODS*

•GASFLUX C-04 BRASS ROD 1/16" Diameter*
Our most popular diameter rod
for general fillet brazing

First pound,\$17.00
Each additional lb.....\$15.50

•GASFLUX C-04 BRASS ROD 3/32" Diameter*
Larger diameter for pro builders

First pound,\$17.00
Each additional lb.....\$15.50

•GASFLUX C-04 BRASS ROD 1/8" Diameter*
Too large for most fillets

First pound,\$17.00
Each additional lb.....\$15.50

* = Made in USA

GASFLUX NICKEL SILVER ROD*

NICKEL SILVER ROD 1/16" Diameter
First Pound.....\$23.50
Each additional Pound.....\$22.00

Use with brass flux.

Not much stronger than brass.

Contains no silver.

Use if you need a silver colored fillet

Possible skin reaction to Nickel filings.

HARRIS SILVER BRAZING WIRE*

•56% SILVER WIRE, 1oz. Coil.....\$ 30.00*

•56% SILVER WIRE, 5oz. Coil.....\$145.00*

•50N (50%Ag,2%Ni) Wire,1oz.\$ 28.00*

•50N (50%Ag,2%Ni) 5oz. Coil.....\$140.00*

Silver prices subject to change without notice.

* = Made in USA

GS20	Sleek cutting edge aero profile. Designed for all aspects of stage racing, road racing, and serious training.							
	NACA AIRFOIL	Carbon Steerer 1 1/8"—300 mm	700c	43 mm	369 mm	335 g	\$180.95*	\$339.90
Competition Series Composite Forks								
CS20	Uses full carbon technology to absorb road vibration on long stages while transferring power efficiently. Combines best of '05 PRO & EX features.							
Crown sized to match Integral Headset	Straight	Carbon Steerer 1 1/8"—300 mm	700c	44 mm	371 mm	405 g	\$126.65*	\$254.90
Extreme Series Composite Forks								
CX	CYCLOCROSS FORK with Cantilever brake bosses.							
	Straight	Carbon Steerer 1 1/8"—300 mm	700c	47 mm	395 mm	490 g	\$246.30*	\$442.00
CX-20	CYCLOCROSS FORK Weighs 1 pound. "POWER CURVE" fork blade design concentrates rake at the Crown & centers the cantilever bosses on the rim.							
	Power Curve	Carbon Steerer 1 1/8"—300 mm	700c	47 mm	395 mm	450 g	\$267.90*	\$493.60
*UNPAINTED FORKS HAVE NO PAINT OR DECALS. THEY ARE INTENDED FOR CUSTOM PAINT JOBS								

HENRY JAMES FRAMEBUILDING EQUIPMENT

MADE IN USA

The ORIGINAL Henry James Jig was replaced by the UNIVERSAL Jig. Key changes are: fully adjustable Tube Supports; Adjustable width Axle; the Protractor now has an adjustable length arm which keys to the BB Shell Post; and a full access stainless steel head tube Rod and Cones. The UNIVERSAL Jig is a great Jig. Reliable Tube Supports designed to work with the precision Protractor accurately locate the tubes for any custom geometry. In addition to lugged construction, this is also a great Jig for lugless construction!

Our redesigned Universal Axle System still adjusts from 100 mm to 145 mm dropout spacing, but now is now on all our Jigs.

Our BRIDGE AND BOSS Jig incorporates the UNIVERSAL AXLE. The INTEGRATED BRIDGE AND BOSS Jig is lower in cost because it uses the UNIVERSAL AXLE from your Frame Jig.

PAYMENT TERMS FOR UNIVERSAL AND ACCESS SERIES JIGS: Because we have low margins on our Jigs, payment is in advance by CASHIER'S CHECK. We request payment only when we have the Jig ready to ship.

UNIVERSAL FRAME/FORK JIG	\$3800.00
>> Plumbed for TIG purge gas; has tube supports for fast Lugged construction	
>> Comes with 3 pairs of Universal Tube Supports. These are fully adjustable for tube diameters up to 50.8 mm (2")	
>> Includes a Protractor with 30" Arms. This works with the Tube Supports to set up any frame geometry	
>> A Fork Building Jig is integrated into the design	
>> This structurally efficient & rigid "Compact Plate Design Jig" weighs only 65#	
TANDEM ATTACHMENT (For UNIVERSAL Jig only).....	\$ 260.00
"ACCESS 100" FRAME JIG [Weighs 100#]..Overbuilt to survive years of use & abuse..	\$2970.00
"ACCESS 65" FRAME JIG [Weighs 65#].....Lighter & Portable, Rigid & Accurate.....	\$2620.00
>> Both ACCESS Jigs are the same size and have the same capabilities	
>> Both use the same Accessories	
>> Both Plumbed for TIG Purge Gas	
ACCESS Top Tube Support	\$ 140.00
>> Holds Top Tube in place, even when Jig is rotated.	
ACCESS Fork Building AttachmentFor 1" & 1 1/8" Steerers.....	\$ 180.00
UPGRADE TO UNIVERSAL AXLE (Includes UNIVERSAL AXLE AND ADAPTOR CRADLE)	
>> FOR ACCESS JIGS WITH BASIC AXLE	\$ 185.00
UNIVERSAL 2 AXIS FRAME JIG MOUNTING SYSTEM(Call for availability).....	\$ 450.00
>> Supports the Henry James UNIVERSAL and ACCESS Jigs. Especially recommended for the ACCESS 100.	
>> Adjust the mounting point height from 40" to 60". Bolts to floor or a plate.	
BRIDGE & BOSS JIG - Comes with Universal Axle.....	\$ 390.00
>> Mounts directly to bike frame	
>> Universal Axle adjusts to Fork and Rear Axle Lengths from 100mm to 145mm	
>> Adaptor integrates B&B Jig Universal Axle to older ACCESS Series Jigs	\$ 50.00
INTEGRATED BRIDGE & BOSS JIG	\$ 270.00
>> For use with UNIVERSAL & ACCESS JIGS that already have a UNIVERSAL AXLE	

SHIPPING & HANDLING FOR UNIVERSAL & ACCESS JIGS:

Western US: \$170.00 Mountain-Midwest: \$190.00 Eastern US: \$210.00

BMX - See Page 9 (<http://www.henryjames.com/price10.html>) and consider: rider wt., use, diameters

* Henry James sells True Temper tubing by the tube, so custom builders can fine tune frames to match rider's needs. Kits are intended for information only. It is the builder's sole responsibility to select a combination of tubes that will serve the intended type of riding while having adequate strength, stiffness, frame fatigue life, and safety.

** **Rider Weight Ranges do not consider rider & builder skill level**, or variations from average rider strength and aggressiveness, speed & terrain, etc. They are a rough guide for beginning builders. The lower number attempts to address how light a rider can be before the rider may find the frame feels rough riding, or too stiff and so not lively enough. The higher number for road frames attempts to address when a taller or stronger rider may feel a bike is too flexible, affecting handling and control. For mountain frames, the higher number attempts to address potential frame bending or failure from impacts or metal fatigue, when there is too much rider and not enough bike.

Detailed descriptions of the Typical Kits and each tube in them are at: <http://henryjames.com/kits.pdf>

TRUE TEMPER SPORTS BICYCLE TUBING IS MADE IN THE USA
