

## PROGRAMMATIC AGREEMENT OUTLINE

THE U.S. ENVIRONMENTAL PROTECTION AGENCY REGION 7, THE IOWA STATE HISTORIC PRESERVATION OFFICE, THE ADVISORY COUNCIL ON HISTORIC PRESERVATION, AND THE IOWA DEPARTMENT OF NATURAL RESOURCES, REGARDING SECTION 106 CONSULTATION - 36 CFR PART 800

The purpose of the proposed Programmatic Agreement is twofold. First, it clarifies the boundaries of the Iowa Department of Natural Resources' (DNR) authority to implement the Section 106 process for both SRF funding from the Clean Water Act and the Safe Drinking Water Act through the Standard Project Review language. Second, the Programmatic Agreement excludes certain activities from a full SHPO review in the Section 106 process, when the facts show those projects will not have a risk of negatively affecting historical resources. Both these features of this Programmatic Agreement will streamline the State Revolving Fund (SRF) funding process to allow wastewater and drinking water treatment projects to move quickly towards completion.
